ELBURG YACHTING[®]

This beautifully built Luxury Motor by SRF from Harlingen is offered for sale by its first very experienced owner. The ship has been technically thought out in detail and therefore accommodates a number of highly innovative solutions. For example, the entire roof of the wheelhouse can be dismantled so that the outdoor experience is only really complete when you sail through the French canals. In addition, the ship is equipped with a hybrid propulsion option. By means of an electric motor on the propeller shaft, the ship can sail silently at approx. 3 knots. This can be done for about 1 hour on the batteries and then you can switch to the hybrid powertrain in combination with the generator. The yacht has always been docked in a covered marina. The wheelhouse has a beautiful dinette with views all around, through the two side doors or the back door which can be opened in two parts, you can be on deck anywhere in no time. Furthermore, this complete ship is supplied with, among other things: spud pole, CVO certificate, spacious saloon with a very homely feeling, spacious open kitchen, raised floor in saloon which results in a view to the outside when you are standing, lots of storage space throughout the ship, wine cellar under saloon floor, large folding window in saloon roof, 150 amp output alternator, checker plate in engine room, automatic fire extinguishing system in engine room, deck wash pump which uses water from the outside or water from the tanks, toilet can be flushed with water from tanks or sea water, Whirlpool AWZ 760 dryer, Whirlpool Boston 1400 washing machine, Siemens dishwasher, wood stove, ship is fully foam insulated, large utility room in stern, double fuel filters with water separators on main engine + generator, double stainless steel bollards, stainless steel railing, fully covered aft deck, large storage space in the forepeak for bicycles, fenders, etc.

You are welcome at Elburg Yachting 7 days a week for questions and/or to make an appointment.
