ELBURG YACHTING®

international yachtbrokers

This Steeler 56S combines performance with elegance. The beautiful design was created by renowned Italian designer Vittorio Pieroni, and the yacht was transformed into a true work of art on the water by the well-known Steeler Yachts shipyard. She has beautiful lines and is constructed from aluminium. Powered by two Volvo Penta D11 - 725 hp engines, she reaches a top speed of approx. 26 knots and a comfortable cruising speed of approx. 18 knots with a range of approx. 380 nautical miles. Every element on board has been designed with comfort and practicality in mind. The generous windows in the saloon provide plenty of natural light. The roof in the saloon can be lifted to create a pleasant natural airflow on sunny days. The roof is also equipped with a Webasto sliding roof. Other unique features of this Steeler 56S include the custom-made Alcantara dashboard, Maecvo dehumidifier, steam oven, beautiful outdoor kitchen, Yachtcontroller remote control, Masscoat hull insulation, height-adjustable steering seat, Kabola central (floor) heating with Webasto climate control and air conditioning, hydraulically lowerable mast, tender garage (excluding tender), Flexiteek all around, hydraulic swimming platform, side door on starboard. For questions and/or to make an appointment, you are welcome at Elburg Yachting 7 days a week.
